Bloques

- Los bloques permiten extender una plantilla base y reescribir diferentes partes.

- Muy útiles para webs donde tenemos que mantener un mismo header o footer, o que tengan que tener diferentes partes en común.

Bloques

base.html

```
<html>
<head>
<title> {% block title %} Forcebook {% endblock %} </title>
</head>
<body>
<header>
{% block header %} header default content {% endblock %}
</header>
<section>
{% block section %} section default content {% endblock %}
</section>
<footer>
{% block footer %} footer default content {% endblock %}
</footer>
</body>
</html>
```

Bloques

{% extends base.html %}

{% block title %} Forcebook rocks! {% endblock %}

{% block header %} Welcome to Forcebook {% endblock %}

{% block section %} Forcebook it's the most geek-based social network {% endblock %}

{% block footer %} Powered by Django {% endblock %}

Bloques

```html
<html>
<head>
<title> Forcebook Rocks! </title>
</head>
<body>
<header>
Welcome to Forcebook
</header>
<section>
Forcebook it's the most geek-based social network
</section>
<footer>
Powered by Django
</footer>
</body>
</html>
```
